

My city is very interesting. It's big and there are lots of great places to visit. For example, you can go to the history museum or the technology museum. My favourite is the history museum. You can learn about the past there. It's easy to see my city by bus. And it's cheap, too. Many visitors like the park. It's beautiful and many people like to go for a walk there. There are coffee shops and restaurant next to the park. The restaurants are very popular, but some of them are expensive. There are many stores in the city, too. I like the bookstores and the clothes stores. The stores I go are't expensive. My favourite is on Main street. It sells old books. There are lots of beautiful hotels in the city and the tourists love to stay there on vacation.
