Reading

5 Read and choose *T* (true) or *F* (false).

All About Eagles

Eagles are amazing animals. They are excellent fliers and very good hunters. Their color and size depend on the type of eagle, and there are more than 50 types of eagles all over the world. But all eagles have some things in common.

They have heavy heads and hooked beaks. They are very strong, and they have powerful legs and sharp talons.

Eagles can see very well. This makes them good at hunting. Their diet depends on the place where they live. Eagles in North America usually eat fish and water birds, like ducks. Eagles in Africa eat snakes. When they see their prey, they can dive down at 160 kilometers per hour!

| 1 Eagles can fly and hunt very well. | T | F |
| 2 All eagles are the same size and color. | T | F |
| 3 There are more than 50 types of eagles. | T | F |
| 4 Eagles in North America eat snakes. | T | F |
| 5 Eagles can fly as fast as 160 kilometers per hour. | T | F |

Reading

6

Read and write *T* (true) or *F* (false).

We're the Paulson family and we're musicians. I'm Jake Paulson and I can play the guitar. This is my sister, Ashley. She can't dance, but she can sing really well. My mom's name is Liz and she can dance. Look, she's dancing with my dad. His name is Tom. He also writes the music for our band. And there's Grandma Rachel playing the drums. She's excellent! Grandpa Mike makes our tracks. He can't play any instruments but he's really cool.

- 1 Jake is not in the picture. _____
- 2 Ashley is dancing with her dad. _____
- 3 Liz is Jake's mother. _____
- 4 Tom writes the band's music. _____
- 5 Grandma Rachel can't play the drums. _____
- 6 Grandpa Mike produces the music. _____
