

Complete with the missing words:

The Months

                  days have September,  
                  , June and                    ,  
all the rest have thirty-one,  
                  except                    alone  
which has                    -eight days clear  
and twenty-                    in each                    year.

The Seasons

In autumn the                    turn brown,  
and soon they all fall                    .  
In winter I                    on ice,  
or play in the                    ... that's nice!  
In                    the leaves turn green,  
and                    can be seen  
In summer when it is                    ,  
I play in the                    a lot!
