Reading and Comprehension Exam

Instructions: Read the following paragraph carefully and then answer the multiple-choice questions based on the passage. Select the best answer for each question.

Paragraph:

Climate change is one of the most pressing issues facing our planet today. Scientists agree that human activities, particularly the burning of fossil fuels and deforestation, are significant contributors to global warming. As a result, we are

witnessing rising sea levels, more frequent and severe weather events, and disruptions to ecosystems. Governments around the world are implementing policies to reduce carbon emissions and promote renewable energy sources. Additionally, individuals can make a difference by adopting more sustainable lifestyles, such as reducing energy consumption, recycling, and supporting green initiatives. Despite the challenges, there is hope. Technological advancements and increased awareness are paving the way for innovative solutions. By working together, we can mitigate the effects of climate change and protect our planet for future generations.

Questions:

1. What is the main topic of the paragraph?
 - A. Technological advancements
 - B. Climate change
 - C. Renewable energy
 - D. Recycling
