

Voice Note

Listen to the voice note and read the script:

Hey there! This is Bill . Sally gave me your number - said you were living in Hà Nội now? Hope this isn't a bad time.

Anyway, Sally told me you know the city really well, and I'm just arriving from London. So, I was hoping you could maybe point me in the right direction for a few things.

Things like your favourite restaurants, cool local shops, maybe even some must see sights that tourists might miss. Anything you think would be awesome!

No worries if you're busy, but if you have a free moment, shoot me back some recommendations. Thanks a bunch!

Complete the response script and make a recording of yourself speaking it.

Hey Bill, this is **(Say your name)** ! No worries at all about the message, I am happy to chat. **(Active listening phrase)** that Sally connected us. Hà Nội can be a bit crazy at first, especially coming all the way from London! **(Extend the conversation phrase)** ?

Anyway, you mentioned recommendations. Absolutely! For my favourite restaurant, there's this incredible little place called **(name a restaurant)** - they do this dish called **(name a Vietnamese food)**, you have to try it! **(Extend the conversation phrase)**?

Cool local shops? You can't go wrong with **(name a local shop)**. It has a lot of **(something they sell)** and **(something they sell)** ?

For must-see sights, **(name a tourist attraction)** is a must. It's **(adjective to describe it)**, and it's way less crowded than some other tourist spots. **(Extend the conversation phrase)**?

These are just a few ideas to get you started, but there's so much more to discover. Feel free to ask anything else that comes to mind!
