6 212 × 4 = ?

First, multiply the ones by 4.

_____ ones × 4 = _____ ones

$$\begin{array}{r} 212 \\ \times \quad 4 \\ \hline \quad\quad \end{array}$$

Then, multiply the tens by 4.

_____ ten × 4 = _____ tens

$$\begin{array}{r} 212 \\ \times \quad 4 \\ \hline \quad\quad \end{array}$$

Lastly, multiply the hundreds by 4.

_____ hundreds × 4 = _____ hundreds

$$\begin{array}{r} 212 \\ \times \quad 4 \\ \hline \quad\quad \end{array}$$

So, 212 × 4 = _____.
