Read and write the words from the list. Make any necessary changes.

adult	ancestor	believe	bone
civilization	discover	site	skull

Alberto Nava Blank is an underwater cave explorer. In 2007, Alberto and his team _____ the skeleton of a young girl in the Hoyo Negro cenote in Mexico's Yucatán Peninsula. "The moment we entered the _____, we knew it was an incredible place," says Alberto. They named the girl Naia. Her skeleton had all of the most important _____, including the _____ with some teeth still in it. Scientists don't think that Naia was an _____. They _____ she was about 13 when she died around 13,000 years ago. They think that her _____ came from an ancient _____ that lived in northeast Asia.
