## Counting Jamaican Money

Counting money is easy!

### 1. Identify and Sort the Coins:

- Look at each coin and say its name out loud.

\$1

\$5

\$10

\$20

- Sort the coins into separate piles by type.

### 2. Count Each Type of Coin:

- Count the number of one dollar coins (\$1) by ones.
- Count the number of five dollar coins (\$5) by fives.
- Count the number of ten dollar coins (\$10) by tens.
- Count the number of twenty dollar coins (\$20) by twenties.

### 3. Add the Totals Together:

- Add the total value of each pile to find the overall amount.

**For example**, if you have 3 one dollar coins, 2 five dollar coins, and 4 ten dollar coins:

- One dollar coins (\$1):

$$\$1 + \$1 + \$1 = \$3$$

- Five dollar coins (\$5):

$$\$5 + \$5 = \$10$$

- Ten dollar coins (\$10):

$$\$10 + \$10 + \$10 + \$10 = \$40$$

**Total:** \$3 + \$10 + \$40 = **\$53**

**Now it's your turn to give it a try!**

**For each question, count the total amount of money.**

1. If you have **3** \$10, how much money do you have?

I have \$\_\_\_\_\_.

2. If you have **two** \$10 coins and **three** \$5 coins, how much money do you have?

I have \$\_\_\_\_\_.

3. If you have **one** \$10 coin and **two** \$20 coins, how much money do you have?

I have \$\_\_\_\_\_

4. If you have **five** \$20 coins, how much money do you have?

I have \$\_\_\_\_\_

5.  
6. If you have **two** \$5 coins and **three** \$10 coins and **two** \$20 coins, how much money do you have?

I have \$\_\_\_\_\_

7. If you have 2 \$50 notes, how much money do you have?

I have \$\_\_\_\_\_.

8. If you have **three** \$100, how much money do you have?

I have \$\_\_\_\_\_.

9. If you have **two** \$500 notes, how much money do you have?

I have \$\_\_\_\_\_.

10. If you have **one** \$500 note, **one** \$100 note and **one** \$50 note, how much money do you have?

I have \$\_\_\_\_\_
