RUNNING OUT OF TIME - PARAMORE

PAST SIMPLE

Listen to the song and choose the correct option:

Never mind, I hit the snooze on my alarm twenty times
But I **was / is** just so tired
There **is / was** traffic, **spill / spilled** my coffee,
crashed / crash my car, otherwise
Woulda been here on time
Shoulda, coulda, **won't / wouldn't** matter, ultimate alibi
You know it's a lie
There **are / was** a fire (Metaphorically)
Be there in five (Hyperbolically)

Intentions only get you so far
(It was on my list, I swear I **meant / mean** to get to it)
A harsh reality to discover, ah

I'm always running out of time
(She's always running out of time)
I'm always running out of time

Why we gotta be in a rush?
My watch is just for decoration, mm
Look, I **showed / show** up early for once
Now that's a new sensation, mm
