## CHANGING EATING HABITS

Eating habits in the UK 1 healthier, according to the results of a government survey. The study 2\_\_\_\_ the food bought by the average family over the last 40 years. One of the greatest differences is the type of milk that people are drinking. Today, buy skimmed milk rather than full-fat milk for their families. This is probably because of campaigns to help people the amount of fat they eat. Another type of food that contains less fat and is very popular today is oven chips. These are chips that are \_\_\_ \_ in the oven without adding fat. It \(^{0}\_{-}\) that British people today are also more adventurous in what they eat. Instead of fish and chips, they're now buying more seafood, such as prawns and \_\_\_\_\_. As for meat, people are eating less and lamb, and more chicken and minced beef. Italian food is extremely popular today and 2\_ pasta is available in the shops, as well as the cheaper dried version. In general, nutritionists are pleased with the results of the survey and hope that people 19\_ eating healthily in the future.
