The Organisation for Educational Development co-operated with Spring School to set up English classes in 1998. Dance, theatre, singing and folk music classes were set up a year later. Children from these classes participate in fundraising performances. They raise money to continue their English and performance Arts classes.

Spring School requires volunteers to help organize their fundraising dinner held annually in June. In an early survey conducted in 1888, a billion and a half people inhabited the earth. Now, the population is about six billion and is growing fast. Even though the rate of growth has begun to slow down, most people believe the population size may be eight billion during the next several years.

LIVEWORKSHEETS

If we examine the amount of land available for this ever increasing population, we begin to see the problem. Not all land is useful to us because it cannot produce food. We can cut out about one fifth of it because it is covered by snow and ice. Then we can cut out another fifth because it is desert. Another fifth is mountains. The other fifth does not have enough soil for crops to grow because it is **bare** rock. Obviously, with so little land to support us, we should take great care not to reduce it any more or with the rapidly growing population we may sooner or later lack food to eat and place to live in.
