

Here are some athletics events and the times taken to complete them.

Draw lines to match each event to its time.

The first has been done for you.

100-metre hurdles	4 minutes
40-kilometre run	13 seconds
1.5-kilometre run	10 seconds
100-metre sprint	$2\frac{1}{2}$ hours

Q2. Here are some of the time taken by a train and the distances covered.

Draw lines to estimate the time for each distance.

15 Kilometers	80 minutes
100 Kilometers	5 minutes
20.9 kilometers	10 minutes
2000 meters	14 minutes
