

Harry Has a Cold

Harry is a zookeeper.

He visits his animal friends every day.

Lino has a runny nose.

Harry gives some tissues to Lino every day.

Steven has no friends.

Harry reads a story to Steven every night.

Today, Harry has a cold.

I have a fever.

You should get some rest.

In the evening, Harry's friends
come to his house.

Harry, what's wrong?

I have a cold. Achoo!

Oh! You have a runny nose. Here are some tissues.

I'll read a story to you. Get some rest, Harry.

Thank you, everyone. I'll be okay.
