

A. Read the weather report.

Good evening. This is Michael Fish with the weather forecast. It's almost the weekend, and a lot of people are going away. We're going to look at the European weather forecast for Saturday.

Let's start in England. It's going to be partly cloudy in London with a high of 11 degrees Celsius. Paris is also going to see similar weather conditions. The rest of France is going to be warm and sunny with temperatures of 19 degrees Celsius in Bordeaux and 17 in Marseille. There is also going to be sunny weather in Italy. The temperature in Rome is going to be about 17 degrees Celsius.

What about the rest of Europe? Well, it isn't going to rain, but it's going to be cold. It's going to be cold and mostly sunny in Warsaw with a temperature of 7 degrees Celsius. Stockholm is also going to be very cold with a high of 6 degrees Celsius.

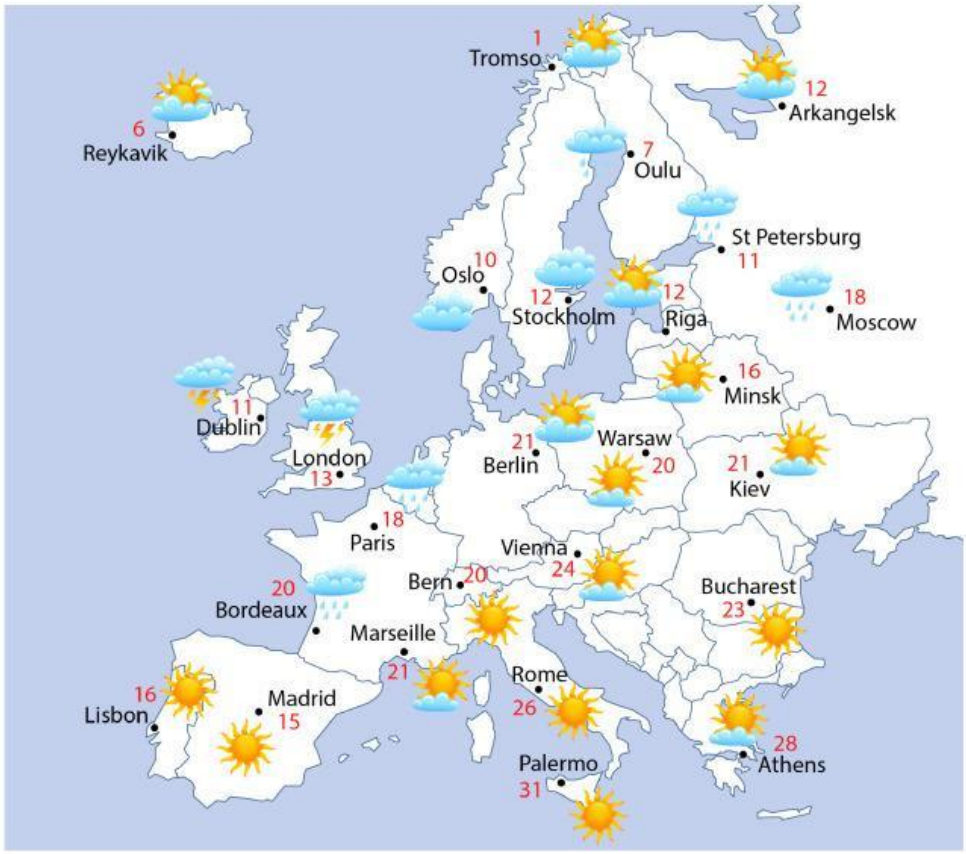

be going to - future

It	's isn't	going to be	hot/cold. dry/wet. sunny/cloudy. rainy/stormy. warm/cool.

It	's isn't	going to	rain. snow.

There's	going to be	rain. snow. thunder/lightning. sunny weather.

B. Look at the weather forecast above. In pairs, ask and answer questions about what the weather is going to be like in the various cities.

Example: A: What's the weather going to be like in Moscow?
B: There's going to be rain with a temperature of 18 degrees Celsius.

C. Working alone, look at the weather forecast above and fill in the gaps to create a weather report for Europe.

Good evening. This is ..... with the European weather forecast for .....

Let's start in ..... It's going to be ..... in ..... with a high of ..... degrees Celsius. ..... is also going to see similar weather conditions. ..... is going to be ..... and ..... with temperatures of ..... degrees Celsius in ..... and ..... in ..... There is also going to be ..... weather in ..... The temperature in ..... is going to be about ..... degrees Celsius.

What about the rest of Europe? Well, it isn't going to ....., but it's going to be ..... It's going to be ..... and ..... in ..... with a temperature of ..... degrees Celsius. ..... is also going to be ..... with a high of ..... degrees Celsius.

D. Now, read your weather report to your partner and together check for any mistakes.
