Assessing the Financial Health of a Company

It is always good to know if a company you want to invest in is financially sound or not. In order to make an informed decision, there are a few steps you can take. First of all, try to get financial records for the company going back about five years. Next, take those numbers and express them as percentages rather than dollars. This way, you can more easily identify trends and growth patterns. It also makes it easier to compare this company with others in the industry. Using these percentages, it is easy to analyze trends in gross and net profits, costs, deficits, and expenditures. You will be able to identify the company's weaknesses and strengths and predict future earnings. With this knowledge at your fingertips, it is easy to decide whether the company is profitable and worth investing in.

Sunday Market Kicks Off the Season

Spring is here, and that means the return of the downtown Sunday market for residents of Urbanville. Held every Sunday morning from May 1 to September 30 (weather permitting) in Hillsboro Park, it features over 350 vendors. This year, the market welcomes around fifty brand-new vendors selling arts and crafts, clothing, and jewelry as well.

[3] Markets like Urbanville's also give people a chance to enjoy the sunshine while socializing with their neighbors. The vendors benefit, too. "The costs of becoming a vendor are low, and there's no long-term commitment," said Kelly Brennan, the market's director.
