

Name _____ Date _____

Ind ____ / 5 Notes: _____

Today you learned a little about a ring that can appear around a full moon. We don't always see these, but they do happen many times of the year. Please answer the following questions! Hint: You may need to go back to the assignment for some answers!

1. Who took this photo?
2. When was the photo taken?
3. What kind of scientist presented information about the Moon Halo?
4. What is the name of the process that causes light to make this ring?
5. What materials does the light go through to make the halo/ring?
