

The bird who said “ thank you “

My friends and I were in the park celebrating Lama's birthday with a picnic when we heard a strange sound. We saw a big, colorful bird in a tree that looked weak and unhappy. We gave it some water and cheese, and it soon drank the water and ate the cheese. After a few minutes, it shook its feathers, squawked (maybe to say 'thank you'), and flew away.

1-After read Match the stages of the story :

1- Beginning .

a) It shook its feathers, squawked (maybe to say 'thank you'), and flew away.
