LIVEWORKSHEETS

My name's Josh. Today in class we're learning about life in our school in 1900. Things were very different then. The school was very small. There were two big classrooms and there was a playground, but there wasn't a sports hall. There were no computers because there wasn't electricity. Sometimes it was very cold, but in the winter there was a fire in each classroom. Now, our school is really big. There are ten classrooms, a library, *and* a sports hall. There are computers in every classroom and we often use them during lessons. But our school saves energy, too. We always turn the computers off after class.

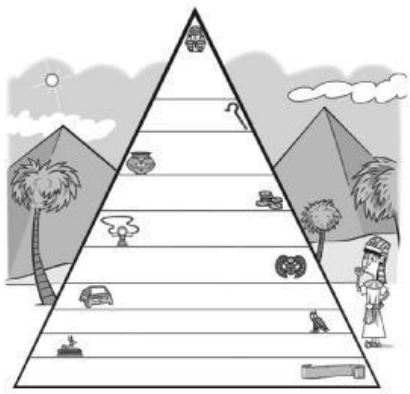

1. Josh's school was very big in 1900.
   Josh's school was very small in 1900.
2. The classrooms were small.
   _____.
3. There were computers.
   _____.
4. There was a fire in the library in the winter.
   _____.
5. Now, Josh never uses computers at school.
   _____.
6. He never turns the computers off after class.
   _____.
