

My favourite Place!

There are a lot of different gorgeous and amazing places I can find in Chile or in the world. You only need to have an adventorous feeling and follow it, even in Santiago we can find very extraordinary places where nobody haa been to yet.
With your friends and your parents find a new place and try to visit it, you will have the best experience ever!!

My favourite place is downtown. Downtown is the city center. I like it because I can see a lot of beautiful buildings.
Last week I went there with my best friend, we had to do some history homework and we needed to describe different buildings of the city. I loved the old buildings, I imagined myself living there decades ago, with old dresses and very **fancy manners**.
We walked along beatiful streets and found interesting and traditional stores. I really liked a particular one where they sold delicious empanadas that were delivered very fast. It was called "El rápido" . We were very hungry and we decided to enter this place because we were very curious (my grandma told me about it). We asked for a empanada and we didn't have to wait so long, in 3 minutes we had it ready to serve, that was amazing
Our day ended up visiting the fine arts museum, we saw beautiful expositions. In the end, we forgot to find information for our assignment, we got really distracted enjoying the views and talking to people so we have to come back! I'm really excited!!
