

PRE-LISTENING

There are some vocabularies that will appear on the recording. Let's guess the meaning of each vocabulary by dragging its meaning equivalent to the vocabulary.

Sort elements

to have a meal in a restaurant, etc. rather than at home

the food and drink that you eat and drink regularly

(of food, farming methods, etc.) produced or practised
without using artificial chemicals

diet (noun):	
eat out (phrasal verb):	
organic (adj):	

Now you will hear the last part of the recording. Answer the questions.

Write NO MORE THAN THREE WORDS OR A NUMBER for each answer

--

Question 8: What do men spend twice as much as women on?

Question 9: What do women spend most on?

Question 10: Which group spends most on eating in restaurants?

VOCABULARY PRACTICE

Let's listen to the recording again and fill in blanks below

--

So, what did we think about how men and 1 spend their money?

OK ... Well, we thought that young women would spend a lot on 2

and 3 , and that young men would buy more 4

equipment and cars. Well, when we look at the 5 we can see that we

were right about the men. Young men spend twice as much as women on cars

and 6 .

But ... and this is interesting ... we were wrong about the women. I was 7

to find that young women spend much more on beauty 8 than they

do on clothes and shoes. So we'll have to think about that again. And there's

another 9 fact about young women ... It looks as though young

women are much more 10 about their 11 than men.

We found that although young women don't spend as much as men

on 12 they do spend a lot more on 13 foods than

young men.
