A. Yes, I'd love to B. I'm sorry, I can't C. Yes, thank you D. Great! Let's do that

***Read the passage and mark the letter A, B, C or D to indicate the correct answer to each of the questions.***

I am sure you have heard about global warming. Global warming may make the sea level become higher. Do you know why? It is because global wanning causes the earth to be warmer and this in turn makes glaciers melt.

What is a glacier? It is a large sheet of ice that moves very, very slowly. Some melting glaciers add more water to the ocean. Higher temperatures also make water expand. When water expands in the ocean, it takes up more space and the level of the sea rises.Coastal flooding could cause salt water to flow into areas where salt is harmful, threatening plants and animals in those areas. Leaders of all nations around the world are in the fight against global warming but "change only happens when individuals take action".

**29. Global warming may make the level of the sea become _____.**

A. warmer B. hotter C. lower D. higher

**30. How fast does a glacier move?**

A. very quickly B. very slowly C. very fast D. very rapidly

**31. What does water expand, according to the passage?**

A.Because of higher temperatures. C.Because of individuals.

B.Because of leaders of all nations around the world D.Because of plants and animals.

**32. What will be threatened if salt water flows into areas where salt is harmful?**

A. Rivers in those cars C. Glaciers in those areas.

B. Trees and animals in those areas. D. Buildings in those areas.

**33. Which of the following statements is NOT TRUE, according to the passage?**

A. Leaders of many countries in the world are fighting against global warming.

B. Global warming may make the sea level become higher.

C. A glacier is a large sheet oi ice that moves very fast.
