There can't be many people (30)\_\_\_\_\_ are unaware of e-mail, even if they have never actually sent one. Besides there are some similarities between e-mail and letters, there are also many differences. The first is that e-mail is delivered instantly, so it can be a very effective means (31)\_\_\_\_\_ communication when speed is important. This speed means that e-mail is more practical for communicating over large distances. Another difference is that e-mail tends to be relatively informal. People are much more possible (32)\_\_\_\_\_ language which they would consider unsuitable for a formal letter. Words spelled incorrectly in an e-mail are less likely to be checked than in a letter.
