Angie: And you can play video games on your (6) _____,....

V. Read the passage and choose the correct answers to the questions below.

The past few years have been the golden era of advanced technology, and I suppose household appliances are no exception. I'm going to describe the refrigerator as a household equipment that I find most useful for my family.

My mom loves cooking and she's actually a good cook. She's mainly responsible for shopping for healthy food and cooking scrumptious meals for all of us. And as a matter of fact, our refrigerator is essential when it comes to food storage. Its size is perfect for the corner area in our kitchen, yet big enough to store a large amount of food for the whole family. We keep the vegetables and certain kinds of fruits at the bottom, whereas the leftovers are kept on top. And some cakes that are made by my mom are kept cold in the middle.

As regards my family meals, fresh meat and seafood is a must. In particular, I cannot go a day without a single piece of pork or beef. Thus, the fridge has always done a great job of keeping the meat and seafood fresh all the time. Besides, ice cream bought by my dad every two to three weeks is also stored in the same freezer.

1. What is the most useful household equipment according to the writer?

A. Refrigerator. B. Telephone. C. Advanced technology. D. Household appliances.

2. What is the responsibility of her/his mother?

A. She loves cooking. B. She's responsible for shopping for healthy food.

C. She's responsible cooking scrumptious meals for her/his family. D. Both B & C.

3. Where do they keep the vegetables and certain kinds of fruits?

- A. In a corner of the kitchen. B. In the middle of the refrigerator.
C. At the bottom of the refrigerator. D. At the top of the refrigerator.

4. Are the cakes kept cold in the middle?

- A. Yes, they are. B. No, they aren't.
C. Yes, her/his mom made cakes. D. No, she is not a good cook.

5. How must meat and seafood be for their family meals?

- A. They must be fresh. B. They must be a lot.
C. They must be beautiful. D. They must be unfresh.

6. How often does her/his father buy ice cream?

- A. Everyday. B. Once two to three weeks. C. Twice a week. D. Once three weeks.
