

**Instructions: Read and listen to the passage.**

Food for the Future

## Food of the Future

Yuck! I read something the other day that made me cringe! Man, just remembering it now makes me want to puke! It was gross!

They say that in the future, our food will be made out of bugs! Yeah, bugs, you heard me right. Can you believe that? I know, it sounds crazy, but I swear it's true! Can you imagine what it will be like eating a beetle burger? Or a termite taco? How about a caterpillar cake for dessert? And would you like some cockroach coffee to go with it? Aaghhh!

They say it's because real food is more expensive than bugs, but I don't know. I think it's because scientists are just plain crazy. They say the silliest things.

My girlfriend says that she once tried some tacos made out of bugs and they tasted fine. Yikes! I think she's very brave, but as for me, no thanks. I'm going to try to stay as far away from the food of the future as I can!

**1) Find the subject pronouns and drag them here.**

**2) Drag the correct answer:**

the reader   the girlfriend   what the narrator read  
the tacos   a caterpillar cake   scientists

Find each passage in the text and answer the questions below.
