

You should adhere to and practise the Science Room Rules to ensure that the Science Room is clean, neatly arranged, and safe at all times.

1) Choose the correct answer.

Let's Think

i. What should they do in the situation below?

Dispose into the sink

Tell the teacher

Tell their friends

Kanang, you have broken this beaker.

Yes. What should I do now?

ii. Azrai is disposing liquid wastes into the dustbin. Is Azrai doing the right thing?

Yes

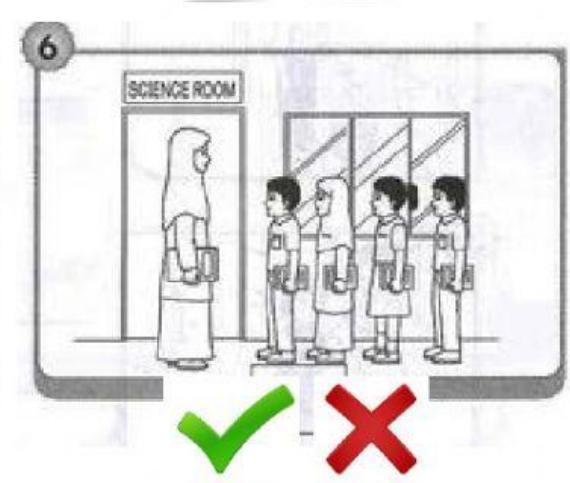

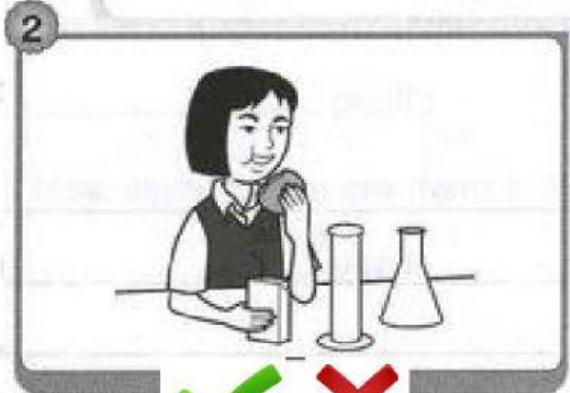

No

iii. Azrai clean all tools and apparatus after use but did not store them in their original places. Is Azrai doing the right thing?

Yes

No

2) Tick  the actions that follow the science room rules and cross out  those that do not.

3) Drag and drop science room rules based on the pictures below.

Dispose solid wastes into waste containers

All accidents, broken tools, and apparatus must be reported to the teacher immediately.

Clean all tools and apparatus after use

Dispose liquid wastes into the sink

Store all tools and apparatus in their original places.
