My Favorite Book

I have a book which I bought last year. The book is a novel which titled The Story of An Idiot. I love that book because when I read it I get not only knowledge but also entertainment.

Unfortunately, I had lost this book. I guess I lose it at Tugu Station during my trip in Yogyakarta. It was difficult to get that book because I never found it at the book store. I got it at the street book seller in London.

The colour of the book's cover is dominated in red. The picture of that cover is a young man in a black jacket walking through the bridge.

At the first page of that book, I wrote my name and my email address. I also draw a simple rat at the corner of the first page. I always do the same thing to all my books because I hope if I lost my book, someone who found it would give it back to me.

The book is written in English. The author of that book is Joseph J Joseph. It is a strange name but cool enough for the name of a novel author.

The total pages of that book are 125 pages which are divided into 6 parts. At the back of the cover is actually the short summary of that book, but I changed it by sticking the picture of a monkey on it.

What is the purpose of the writer to write the text?

- A. To inform the titled of the writer's favorite book
- B. To introduce the author of the writer's favorite book
- C. To tell the content of the writer's favorite book
- D. To describe of the writer's favorite book

The writer is fond the book because ...

- A. The color is good
- B. The book's cover is interesting
- C. It is entertaining and gives knowledge
- D. The book is written in English

What is the purpose of the text?

- A. To attract people to enjoy The Bunaken National Marine Park
- B. To optimize the the beauty Bunaken National Marine Park
- C. To share the writer's experience in Bunaken National Marine Park
- D. To warn people from coming Bunaken National Marine

VK's Project

Bunaken National Marine Park

The Bunaken National Marine Park is located at the north of the island of Sulawesi, Indonesia. This marine park is made up of the mainland along the coast of Manado and five islands: the Bunaken, Manado Tua, Silande, Mantehage and Nain.

Bunaken is about a hour by boat from Manado. It is the most amazing diving place in the world. The waters of Bunaken National Marine Park are extremely deep. However, people can dive safely at Bunaken. The temperature is about 27°-29° Celcius. Divers can find corals, fish, sponges, clams and other sea species in the water. Bunaken has about 60 kinds of coral and a thousand of fish species.

Bunaken Marine Park is such a treasure trove of biodiversity.

where is the location of
Bunaken National marine park?
It is located

- A. North of Manado
- B. Along coast of manado
- C. The north of Sulawesi Island
- D. North Sulawesi
