It looks like Japan will release tons of contaminated water into the ocean in the next months

It sure would lead a president if Elon Musk quits his new role on Twitter.

That reminds me of that time when there was a big problem with contaminated water and tons of animals were killed

This has nothing to do with what we are talking about but did you check the new info about the levels of contamination in the world.

By the way, did you check what he said about the company

Before I forget, did you see what other countries promised to president Zelensky.
