

A DAY AT THE PARK

Last Saturday, I went to the park, which I often visit with my friends. The park, which is very large and beautiful, is located near my house. I met my friend Sarah, who was already there waiting for me. Sarah, whose brother I went to school with, loves the park because it has a lot of trees and flowers. We walked to the lake, where we saw some ducks swimming. There is a small café near the lake, where we decided to have lunch. The café, which serves the best sandwiches, was very busy. We found a table, which was in the shade, and we ordered our food.

While we were eating, we talked about our plans for the summer, which we are both excited about. Sarah told me about a new book, which she is reading. After lunch, we went to the playground, where we used to play as children. There were many children, who were playing and having fun.

We stayed at the park until the evening, when the sun began to set. It was a wonderful day, which I will always remember.
