

Ficha N° 11

Completa la información faltante en cada ejercicio para determinar la suma de fracciones. Colorea las rebanadas y escribe la fracción.

$$\begin{array}{ll}
 1) \frac{1}{4} + \frac{1}{8} = \frac{2}{8} + \frac{1}{8} = \frac{3}{8} & \frac{2}{4} + \frac{3}{8} = \frac{4}{8} + \frac{3}{8} = \frac{7}{8} \\
 2) \frac{1}{6} + \frac{1}{12} = \frac{2}{12} + \frac{1}{12} = \frac{3}{12} & \frac{2}{6} + \frac{3}{12} = \frac{4}{12} + \frac{3}{12} = \frac{7}{12} \\
 3) \frac{2}{6} + \frac{3}{12} = \frac{4}{12} + \frac{3}{12} = \frac{7}{12} & \frac{4}{6} + \frac{3}{12} = \frac{8}{12} + \frac{3}{12} = \frac{11}{12} \\
 4) \frac{2}{5} + \frac{5}{10} = \frac{4}{10} + \frac{5}{10} = \frac{9}{10} & \frac{2}{5} + \frac{5}{10} = \frac{4}{10} + \frac{5}{10} = \frac{9}{10} \\
 5) \frac{3}{5} + \frac{1}{10} = \frac{6}{10} + \frac{1}{10} = \frac{7}{10} & \frac{3}{5} + \frac{1}{10} = \frac{6}{10} + \frac{1}{10} = \frac{7}{10} \\
 6) \frac{2}{3} + \frac{2}{12} = \frac{8}{12} + \frac{2}{12} = \frac{10}{12} & \frac{2}{3} + \frac{2}{12} = \frac{8}{12} + \frac{2}{12} = \frac{10}{12} \\
 7) \frac{1}{3} + \frac{4}{9} = \frac{3}{9} + \frac{4}{9} = \frac{7}{9} & \frac{1}{3} + \frac{4}{9} = \frac{3}{9} + \frac{4}{9} = \frac{7}{9} \\
 8) \frac{4}{5} + \frac{1}{10} = \frac{8}{10} + \frac{1}{10} = \frac{9}{10} & \frac{4}{5} + \frac{1}{10} = \frac{8}{10} + \frac{1}{10} = \frac{9}{10} \\
 9) \frac{1}{4} + \frac{3}{8} = \frac{2}{8} + \frac{3}{8} = \frac{5}{8} & \frac{1}{4} + \frac{3}{8} = \frac{2}{8} + \frac{3}{8} = \frac{5}{8} \\
 10) \frac{5}{6} + \frac{2}{12} = \frac{10}{12} + \frac{2}{12} = \frac{12}{12} & \frac{5}{6} + \frac{2}{12} = \frac{10}{12} + \frac{2}{12} = \frac{12}{12}
 \end{array}$$
