Unit 2: Exercise 2

Read the email and complete the sentences. Write no more than one word in each gap.

Dear Sir or Madam,

My name is Haruka Murukami. I come from Tokyo in Japan. I am coming to the USA in August and will start my course at New College in September. Thank you for sending me the course information. I felt a bit worried about the course before, but now I feel really excited about studying at New College. I am writing to find out about student accommodation for international students. I would like to know what the rooms are like and what furniture they have. I would also like to know where students like me who live on the campus can eat.

I look forward to hearing from you soon.

Best wishes,

Haruka

Unit 2: Exercise 3

LIVEWORKSHEETS

Read the text. Then complete the exercise on the next screen.

Many international students come to study at New College every year. There are three main types of accommodation available to international students: college halls of residence, private houses or flats, and host families.

A College halls of residence
There are three halls of residence on the college campus. Tulip Hall and Rose Hall have single rooms for students with a bed, desk, chair, wardrobe, cupboard and a bookcase. There are shared bathrooms and a shared kitchen. In Holly Hall, the rooms also have their own bathrooms. Students have breakfast, lunch and dinner in the college restaurant. The college halls of residence are a good choice for students who want to make new friends, but would prefer not to cook their own meals.

B Private houses or flats
Some students prefer to find their own house or flat in the city. This is more expensive than staying on campus or with a host family, but many students like to do this because they can live with their friends. Students can find houses and flats to rent in the city on the college website. This is a good option for students who prefer to cook for themselves. There is often a living room where students can spend time together when they are not working.

C Host families
Another popular choice for international students is to stay with a local host family. Students live in a house or flat with a family. The family makes breakfast and dinner for the student, but they need to buy their own lunch. The family also spends time with them in the evening and organises activities for the weekend. All students have their own bedroom, and share the bathroom, living room and kitchen with the family. This is a really good way for international students to improve their level of English quickly by talking to members of the host family.

Match the information with the three paragraphs. Read the text on the first screen again to help you.

Unit 1: Exercise 5

Read about professional runner Rosa Martinez and where she goes on holiday. Then complete the exercise .

A As a famous runner, I do a lot of travelling as part of my job. Last year I did races in London, New York, Paris and Dubai. I also went to Thailand for a big sports event, which was an amazing experience. However, when I have time to take a holiday, I love going to my aunt and uncle's house in the south of Spain. I go there for two weeks every summer with my whole family. My aunt and uncle bought the house when I was very young and I still remember the summers I spent there when I was a child. It is a beautiful house and my favourite place to stay in the whole world.

B The house is just outside a small village and it is close to the mountains and the sea. It is more than 100 years old. In the past, it was a farm with horses, chickens and sheep. There are no animals there now, but there is still a lot of land, so the house has a really big garden. In the garden, there is a barbecue area, and we often have dinner there in the summertime. There are fruit trees, vegetables and a lot of flowers. We don't need a swimming pool, because the house is so close to the sea. We always spend a lot of time at the beach when we go there in the summer.

C All of the rooms are large and pretty. On the ground floor, there is a big kitchen and living room, a bathroom and one bedroom. Upstairs there is one large bedroom with its own small bathroom. You can see the mountains from this bedroom. There are two more bedrooms where you can see the sea. My favourite bedroom is the first one on the left when you go up the stairs. I used to stay there when I was a child. It has a seat in the window where I like to sit and read books or write letters.

D The style of the house is very traditional. There is a very large dinner table in the kitchen, so that the whole family can sit down and eat together. The living room has comfortable chairs and a large television screen. We often watch films or play games there in the evenings. My uncle made a lot of the furniture himself. He made the tables and chairs in the

kitchen and all the beds. The walls are all painted in different shades of green and blue to look like the sea. My aunt loves to paint, and does beautiful paintings of the mountains and the sea in the area. There are many of these paintings on the walls.

E The house is close to some of the most beautiful countryside in the area, and it is possible to walk to some of the best beaches, where there are not many people. In fact, we sometimes have the whole beach to ourselves! The village is a short walk or bicycle ride from the house, and you can find some lovely cafés and restaurants in the main square. I often go canoeing, horse riding and hiking nearby. It is great to get away from the city and relax in nature.
