

# Personal security and health

Staying safe is a question of common sense and taking some basic precautions. Inner city areas and town-ships are probably the most dangerous places – especially at night. Do not go out on your own, anywhere, and don't go exploring unless you are sure where you are going. Don't wear expensive – looking accessories.

Pickpockets are sometimes a problem so don't carry large sums of money. Keep some change in a side pocket so that you don't have to produce your wallet whenever you need to tip. A money belt worn under your clothes is useful for keeping documents and money.

Don't go near deserted or poor areas except as part of a tour group. Leave valuables in your hotel's safe-deposit box. Avoid travelling on any suburban trains at off-peak times, unless you're in a group of at least ten. If a criminal points a gun at you, obey his or her orders.

When travelling by car, always keep the doors locked and the windows only slightly open. When you leave the car, lock it, even if you're getting out for just a few moments. Make sure nothing of value is visible inside. Use supervised car parks whenever possible.
