A. Read the dialogue below and identify the expression. Drag and drop the expression on the correct COLUMN.

Class Discussion: Environment and Health

Teacher : Good morning class! Today, we'll be discussing a topic that affects both our environment and our health. Can anyone guess what it might be?

Student 1 : Pollution?

Teacher : Excellent! Pollution is a major environmental problem. **What do you think** are some of the ways pollution can impact our health?

Student 2 : I think air pollution can cause breathing problems like asthma.

Teacher : Absolutely! **In my view**, water pollution can also be harmful as it can contaminate the water we drink. **What is your view** on how pollution affects our food sources?

Student 3 : **To be honest**, I'm worried about microplastics in fish and other seafood.

Teacher : That's a valid concern. **I think** reducing plastic use is a crucial step towards a healthier environment. **Do any of you** have ideas on how we can achieve that?

Student 4 : We could use reusable shopping bags instead of plastic ones.

Teacher : Great suggestion! **In my mind**, promoting sustainable practices like that is essential. **Now, let's talk about solutions. What do you think** we can do as individuals to make a difference?

Student 5 : We can conserve water and energy at home.

Teacher : Perfect! **What is your view** on reducing our carbon footprint by walking or cycling?

Student 6 : I think that's a good idea, but it's not always practical.

Teacher : True, but every little bit helps. **Overall, what are your thoughts** on the importance of protecting the environment for our health?

Student 7 : I think it's incredibly important! A healthy environment means a healthier us.

Teacher : Exactly! By working together, we can create a cleaner, healthier world for everyone. Remember, even small changes can make a big difference.

Asking an Opinion	Giving an Opinion
