

# INDIA'S RAINFOREST BY NIGHT

Fill in the blanks with the correct form of the root word on the right.

India has amazing countryside with some of the most (1)\_\_\_\_\_ wildlife on Earth, and its 96 National Parks are becoming (2)\_\_\_\_\_ popular. These parks contain a huge (3)\_\_\_\_\_ of creatures, from multicolored butterflies to magnificent tigers, but (4)\_\_\_\_\_, for visitors, many of them are active mainly at night and then seem to (5)\_\_\_\_\_ during the day. In southern India's Periyar National Park, however, they have found a solution to this problem: night tours.

Walking through the rainforest in the dark is a wonderful way to observe creatures in their natural (6)\_\_\_\_\_. You quickly become more (7)\_\_\_\_\_, to the sounds of birds and animals, and you soon begin to recognize some of their calls. You are accompanied by local guides to prevent you getting lost, and also for (8)\_\_\_\_\_ reasons: there are big cats around, and (9)\_\_\_\_\_, snakes, too.

Many visitors want to continue their (10)\_\_\_\_\_ of the jungle all night, but if you want a break from the tropical (11)\_\_\_\_\_ there are rivers where you can go to for a cooling swim by moonlight.
