EXERCISE

❖ **Practice the dialog with your friend. Then, answer the questions.**

Andina : Guys, I'd like to talk about how we manage our domestic waste. I believe we can handle it better.
Jeffry : I think so. Then, what do you suggest?
Andina : We can start with reducing the use of single-use plastics. I think plastic is one of the main sources of garbage.
Diana : Indeed. Then, we use reusable bags for shopping.
Andina : Right. Further, we prefer purchasing goods that are packed with environmentally friendly materials, such as cardboard or other biodegradable materials.
Jeffry : I see. If that's so, we should look into more environmentally friendly cleaning products in our homes too.
Diana : What do you mean?
Jeffry : We should make sure to use products that are free from harmful chemicals and biodegradable.
Andina : You're right. Well, I have an idea then. What do you think if we try to make our own cleaning products using natural ingredients?
Jeffry : I agree! We can search for articles about how to make it from the Internet.
Diana : Can you do that, Jef?
Jeffry : Sure.

Questions:

1. What are Andina and friends talking about?
2. Why does Andina ask her friends to reduce the use of single-used plastics?
3. What do Andina and Diana suggest in their attempts to reduce plastic?
4. What does Jeffry suggest related to the topic?
5. What do you think about the actions that Andina and her friends are going to do?

❖ **Identify expressions used by the speakers in previous activity. You can drag the sentences and put in the table.**

- What do you mean?

- We should make sure to use products that are free from harmful chemicals and biodegradable.

- We can start by reducing the use of single-use plastics.

LIVEWORKSHEETS

- We can use reusable bags for shopping.
