Part 3

For each question, choose the correct answer.

Organic farming and WWOOFing

The pollution of the planet is one of today's most widely discussed topics. Whether you choose to read articles in the newspapers or watch videos on the internet, it is impossible to avoid this unpleasant reality. There is so much bad news surrounding the environment that it can be hard to believe that, as one individual, you can actually make a difference. The WWOOFing organisation (World Wide Opportunities on Organic Farms, also known as Willing Workers on Organic Farms) was set up 45 years ago and now has participating farmers and WWOOFers all over the world. The idea is simple: WWOOF sends volunteers to organic farms, whose main purpose is to protect the environment by not using anything that's not natural. Volunteers can stay at one farm helping with farming or gardening activities for a few days to years, even. Michael Bryant, owner of Hedge Farm, says: 'My wife and I run a small organic farm. We grow vegetables throughout the year which we sell at the local market, and we also keep chickens and sheep. We can offer accommodation and food to four WWOOFers at any one time and in return they work for half of every day that they are with us. We have hosted people from all over the world and we have learned as much from them as they have hopefully learned from us.'

The experience can often be life-changing. Sarah Anderson says: 'I spent the happiest months of my life working on a farm in Australia. I learned so much while I was there, not only about organic farming, but also about myself and how good a simple life can be. I came back to the UK and put my name down for a course on how to better protect the environment in our everyday lives. I hope to teach in the future because I believe that we all can and should learn to live in a peaceful way in nature.'

It is through organisations like this that we as individuals can see how much power we actually have. One person's actions might not seem like a lot, but when they join together, change can happen.
