

Are the below 2 D shapes Symmetrical or asymmetrical?

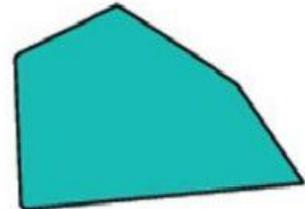

Select the correct answer.

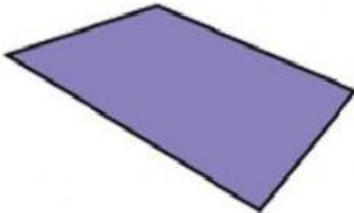

Symmetric / Not symmetric

Symmetric / Not symmetric

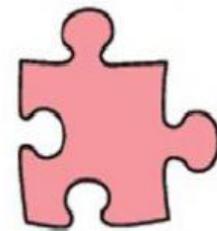

Symmetric / Not symmetric

Symmetric / Not symmetric

Symmetric / Not symmetric

Symmetric / Not symmetric

Fill in the blanks

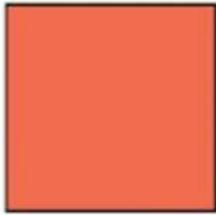

1. A circle has _____ lines of symmetry.

- 0
- 4
- 10
- infinite

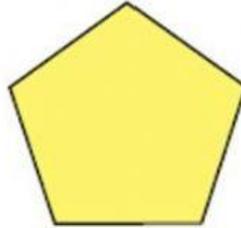

MS POONAM

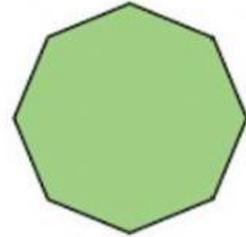

Type how many lines of symmetry these shapes have.

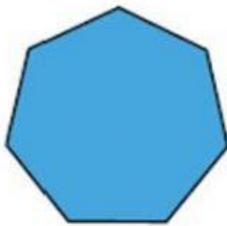

1. A square has ____ lines of symmetry.

2. A regular pentagon has ____ lines of symmetry.

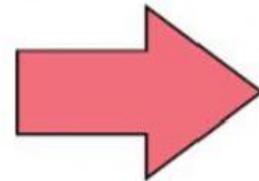

3. A regular octagon has ____ lines of symmetry.

4. A regular heptagon has ____ lines of symmetry.

5. A Isosceles triangle has ____ lines of symmetry.

6. This arrow shape has ____ lines of symmetry.
