

Chapter 12

Games We Play

Games played in the open are called **OUTDOOR GAMES**. Similarly, games played inside are called **INDOOR GAMES**.

Hide-and-Seek

It can be played anywhere. In this game, one player seeks other players who are hiding.

Hopscotch

In this game, various boxes are drawn. The players throw a disc in each box. Then they get the disc by hopping from box to box.

Chinese Checkers

Six players, with each one having six coloured dices, can play this game.

Skipping Rope

It is a game of skipping. One or more children jump over a rope that passes under their feet and over their heads.

LIVEWORKSHEETS

Ludo

It is a game in which two or four players play with a dice and set of pieces. They move the pieces forward according to the number they get from the dice.

Carrom

In this game, either two or four players can play. There are two sets of discs, black and white with one red disc. A player strikes a disc with a striker to put it in one of the four holes at each corner to score points. The red disc, known as the queen, carries more points.

Think Fast
