

Complete the text with the correct form of the verbs in parentheses.

Use contractions where necessary.

# What color are our dreams?

<sup>1</sup> Do we dream (dream) in color or in black and white?

People argued for many years about this question, and scientists

<sup>2</sup> do (do) a lot of research about this question. One of these scientists is a psychologist who <sup>3</sup> work (work) at Dundee University. Her name is Eva Murzyn, and right now she <sup>4</sup> study (study) the effect of television on our dreams. Eva <sup>5</sup> just (publish) the results of her latest study.

Sixty people <sup>6</sup> help (help) Eva with her research. They completed a questionnaire and kept a diary of their dreams. She <sup>7</sup> choose (choose) people who were either under 25 or over 55. When Eva analyzed their diaries, she <sup>8</sup> discover (discover) that the younger people usually dreamed in color, whereas the older group often <sup>9</sup> have (have) black-and-white dreams. Eva thinks that this is because the older group <sup>10</sup> see (see) TV shows in black and white when they were young. She believes that something happened to their brains while they <sup>11</sup> watch (watch) TV at that time.
