

What is the weather like?

Last week's weather was really strange! On Monday, it was cloudy and humid in the morning, and by the afternoon, it became rainy—just enough to need an umbrella.

Tuesday started off dry and warm, but by lunchtime, it turned stormy with strong winds and loud thunder, forcing us to stay indoors.

Wednesday was nicer, though still a bit humid. The sun came out, and it got hot in the afternoon, perfect for playing outside.

Thursday was unpredictable, with hot and cold weather alternating throughout the day. By evening, it suddenly turned cold.

Friday was the biggest surprise—it became snowy! Even though it was still autumn, it felt like winter, and we ended up making snowmen and having snowball fights.

It was a crazy week of weather!

Task 1. Read the text. Write the word for the weather (humid, snowy, rainy, stormy, dry, cloudy,) with days of the week.
