- A. To ask the audience to change the date and time of the school
- B. To describe a new course to the audience
- C. To inform the audience the change of the date and time of the school
- D. To provide a review on the school course

**Question 19-21: Read the text and choose the correct answers**

Food and cooking ideas have spread globally since the Stone Age, but knowledge about historical eating habits is limited compared to knowledge about other aspects of culture like housing and clothing. Before the 17th century, cookbooks were scarce, and even when they existed, they didn't always reflect common eating habits. Changes in food consumption were driven more by the movement of people, such as armies and merchants, than by written recipes. Most people relied on locally produced food due to limited transportation, and regional food was common with some people struggling to have enough to eat. Only the wealthy could afford diverse and exotic foods. Modern food production offers benefits like cleanliness and affordability, but it lacks the variety and quality of flavor that was available in the past. Today, despite the technological advances, the variety of foods, such as *pears*, has decreased significantly.

**19. Changes in eating habits were due to...**

- A. the recipes of foreign cooks.
- B. the influence of travelers.
- C. shortage of basic food.
- D. development in agriculture.

**20. What point is the author making in the example about the pears in the last sentence?**

- A. There is more variety outside Europe than in Europe.
- B. There was more variety in the past but the quality was not as high.
- C. Most pears which are produced were inedible.
- D. There is not as much variety as before.

**21. What is the best title for above paragraph?**

- A. The effect of travelling on food
- B. Food is more poisonous than they used to be
- C. The evolution of food and cooking across history
- D. The productivity of food nowadays

**Question 22-24: Read the following text**

Who are the best drivers? Which drivers are the safest on the roads? According to a recent survey, young and inexperienced drivers are the most likely to have an accident. Older drivers are more careful. Young men have the worst accident records of all. They often choose faster cars with bigger engines. One of the most interesting facts in the survey is that passengers have an effect on the drivers. When young male drivers have their friends in the car, their driving becomes worse. When their wife or girlfriend is in the car, however, their driving is better. But opposite is true for women. Their driving is more dangerous when their husband or boyfriend is in the car.

**Fill each blank in the following sentences with ONE word from the text.**

The survey reveals that young, (22)\_\_\_\_\_ drivers, especially young men, are the most prone to accidents, often driving faster cars. Older drivers are generally safer. Interestingly, (23)\_\_\_\_\_ influence driving behavior: young men drive (24)\_\_\_\_\_ with friends but better with their wife or girlfriend, while women drive more dangerously when their husband or boyfriend is in the car.

**Question 25: The following sentence has ONE word that is not correct. The correct word has the same pronunciation as the wrong one. Circle the wrong word and write the correct word.**

She plans to meat him at the airport.

Correct word: \_\_\_\_\_

**Question 26: Write a paragraph of 50-70 words to answer the following questions:**

*What did you do last summer?*
