

## Test 2: Percentages

Name.....

Fill in the blank with the correct answer.

| Percentages | Fractions        | Decimals |
|-------------|------------------|----------|
| 48%         |                  |          |
| 56%         |                  |          |
|             | $\frac{8}{100}$  |          |
| 2%          |                  |          |
|             | $\frac{36}{100}$ |          |
|             |                  | 0.2      |
| 30%         |                  |          |
|             | $\frac{4}{100}$  |          |
|             |                  | 0.51     |
|             |                  | 0.01     |

$$32\% = \frac{32}{100} = 0.32$$
