

1 Escribe los resultados.

$3 \times 3 = \square$

$6 \times 2 = \square$

$9 \times 4 = \square$

$3 \times 8 = \square$

$6 \times 5 = \square$

$9 \times 7 = \square$

$3 \times 6 = \square$

$6 \times 9 = \square$

$9 \times 1 = \square$

$3 \times 5 = \square$

$6 \times 7 = \square$

$9 \times 3 = \square$

2 ¿Qué números faltan? Escribe.

$6 \times \square = 12$

$2 \times \square = 18$

$9 \times \square = 54$

$5 \times \square = 10$

$3 \times \square = 21$

$4 \times \square = 32$

$4 \times \square = 16$

$6 \times \square = 30$

$5 \times \square = 35$

$9 \times \square = 36$

$10 \times \square = 40$

$2 \times \square = 10$
