

Read and answer the questions

Hi Feli!

How are you? I want to tell you about my school and my friends. I go to a big school. I study many school subjects like math, science, and art.

Right now, I am at the baker's with my friends. We are buying bread and cookies. Later, we will go to the museum. I love going there because it is interesting.

At school, I have many friends. Some of them are very friendly and others are very funny. My best friend is very shy but he is also very hard-working. Another friend is a bit absent-minded and always forgets his books.

After school, we all meet at the supermarket to buy snacks. Sometimes we go to the theatre to watch plays. I usually make a phone call and ask my mum if I can go.

I also write a blog about my school life. It is fun to share what I do every day.

That's all for now. Write back soon!

Best,
Thiago Messi

- 1) What school subjects does Thiago study?
- 2) Where are Thiago and his friends right now?
- 3) Why does Thiago love going to the museum?
- 4) How would you describe Thiago's best friend?
- 5) What do Thiago and his friends do after school?
- 6) What does Thiago usually do before going to the theatre?
- 7) Does Thiago have a blog?
