

LOOKING FOR A JOB!

I'm 24 years old and I'm a visual designer. I'm from Medellin and I live with my mom and my little sister. I'm currently looking for

my first job. I want to work as a freelancer designer from home because I need to manage my time well since I will start a new designing course next month.

I consider myself as a creative person, but my best quality is definitely my responsibility. When I'm not working, I like to watch series on Netflix and play online videogames with my friends. I also like to spend time with my girlfriend, that's why I usually visit her on weekends.

LOOKING FOR A JOB!
