He is proud to own a new car.
إنه فخور بامتلاكه سيارة جديدة

Alphabetical Order

When people need a word or information quickly, how do they find it?

They use alphabetical order.

alphabetical order = put words in the same order as the letters of the alphabet

Dictionaries, computer files, and almost all lists use alphabetical order. For example, to find birthday,

1) look for the first letter of the word, ex. B. The words follow the alphabet: A words, B words, C...

2) If more than one word begins with that letter,

look at the second letter in the words. The second letters also follow the alphabet: ba words (band), be words (bend), bi words (bird), ...

3) If more than one word starts with those 2 letters, go to the third letter in the words. The third letters follow the alphabet: bill, bind, birth, bitter,...
