Bagian 1

Contoh

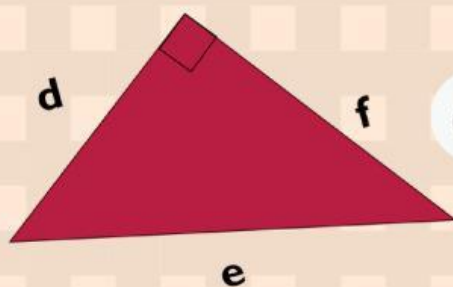

$$v^2 = x^2 + w^2$$

$$v = \sqrt{x^2 + w^2}$$

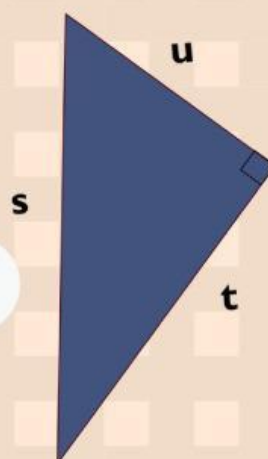

MATH

Lengkapilah titik-titik dibawah ini!

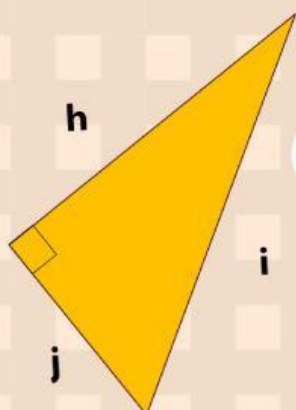

$$e^2 = d^2 + \dots^2$$

$$e = \sqrt{d^2 + \dots^2}$$

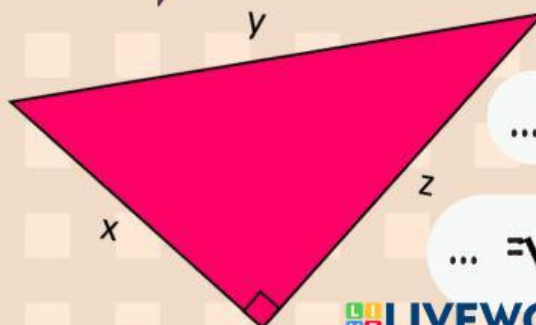

$$t^2 = \dots^2 - \dots^2$$

$$t = \sqrt{\dots^2 - \dots^2}$$

$$\dots^2 = i^2 - \dots^2$$

$$\dots = \sqrt{i^2 - \dots^2}$$

$$\dots^2 = \dots^2 - \dots^2$$

$$\dots = \sqrt{\dots^2 - \dots^2}$$

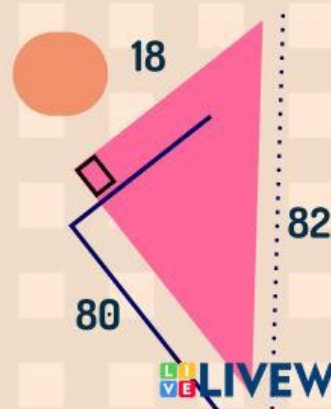

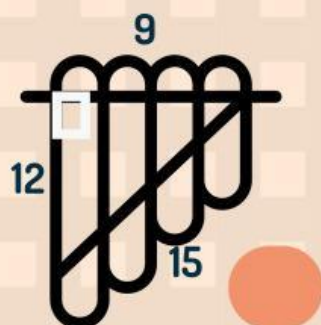

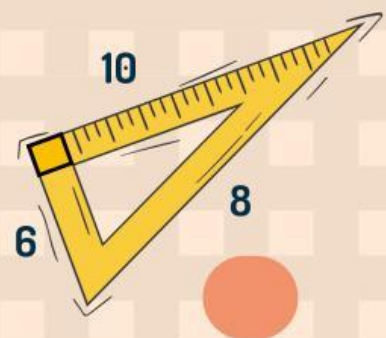

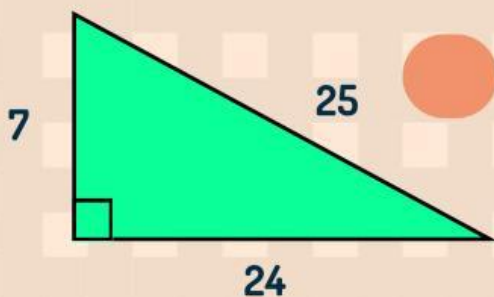

Bagian 2

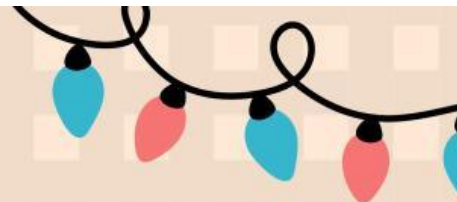

Carilah bilangan dibawah ini yang merupakan bilangan tripel pythagoras! (Petunjuk: teka-teki silang)

6	1	18	80	82
8	28	17	12	10
10	30	7	24	25
9	7	20	26	16
4	9	12	15	18

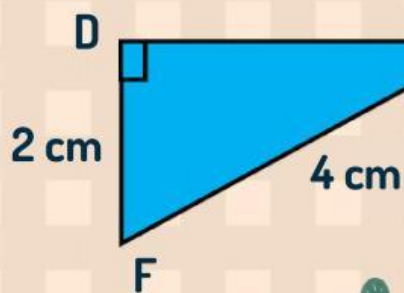

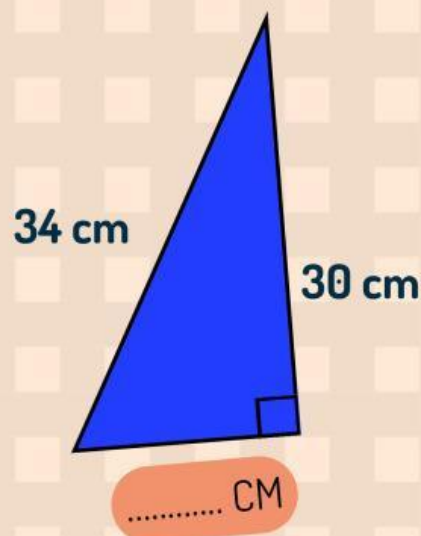

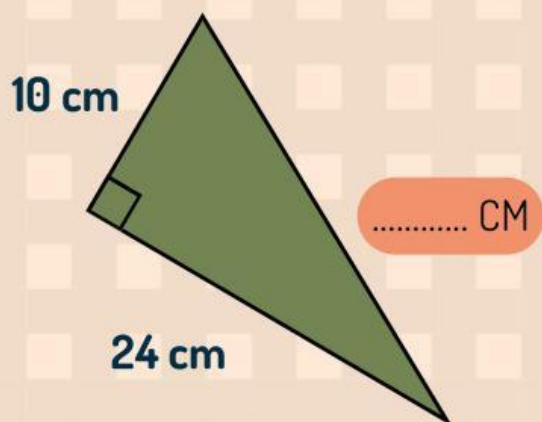

Pilihlah dari beberapa gambar segitiga siku-siku dibawah ini, yang termasuk segitiga siku-siku dengan bilangan tripel pythagoras! (Petunjuk: klik yang sesuai)

Bagian 3

Isilah titik-titik dibawah ini!

Berapakah panjang DE?

Panjang DE = CM

Bagian 4

Tuliskan bunyi dari teorema pythagoras!

Apa itu hipotenusa?

YEEY SUDAH SELESAI
