READING

VIII. Read the passage and decide if each statement is true (T) or false (F). Tick ✓ the boxes.

Listening to a foreign language is a powerful tool for improving one's language skills, understanding different cultures, and expanding one's worldview.

When it comes to learning strategies, motivation is key. Motivate yourself by listening to things you enjoy and find interesting. The first time you listen to a text, focus on the general meaning. Don't worry if you don't understand everything initially, just persevere! Besides, studying English pronunciation can also help your listening skills.

Practise by watching English TV shows or films at home, with or without subtitles. Listen to podcasts and videos on your device. Find lyrics to English songs, then listen and read along. You can also listen and read simultaneously.

Remember, listening is easy to do and you can improve it any time of day! Listen wherever you go, like on the bus or at the gym. Listen at home while doing other things. You can even listen and read on your tablet or mobile phone. Make English a part of your everyday life!
