

Criteria	Project 1: Water Filtration and Purification Device	Rating	Project 2: Rainwater Harvesting System	Rating	Project 3: Solar-Powered Water Pump	Rating
<b>Problem Solving</b>	What specific problems related to water access will this device address?		What specific problems related to water access will this device address?		What specific problems related to water access will this device address?	
<b>Main Benefits</b>	What are the primary benefits of implementing this device?		What are the primary benefits of implementing this device?		What are the primary benefits of implementing this device?	
<b>Production Feasibility</b>	How easy or difficult would it be to produce this device locally?		How easy or difficult would it be to produce this device locally?		How easy or difficult would it be to produce this device locally?	
<b>Cost</b>	What would be the estimated cost of producing and implementing this device?		What would be the estimated cost of producing and implementing this device?		What would be the estimated cost of producing and implementing this device?	
<b>Sustainability</b>	How sustainable is the device in the long term?		How sustainable is the device in the long term?		How sustainable is the device in the long term?	
<b>Adaptability</b>	Can the device be adapted or scaled to other remote areas with similar challenges?		Can the device be adapted or scaled to other remote areas with similar challenges?		Can the device be adapted or scaled to other remote areas with similar challenges?
