

**A** Read about Andy and Sara. Write the simple present form of the verbs in parentheses.

My brother Andy <sup>1</sup> \_\_\_\_\_ (work) at home. He <sup>2</sup> \_\_\_\_\_ (be) a writer, and he <sup>3</sup> \_\_\_\_\_ (write) books for an international book company. He <sup>4</sup> \_\_\_\_\_ (love) his job and he says that he <sup>5</sup> \_\_\_\_\_ (not / want) to work in an office. He <sup>6</sup> \_\_\_\_\_ (start) work at 10 a.m. He <sup>7</sup> \_\_\_\_\_ (not / have) lunch, and he <sup>8</sup> \_\_\_\_\_ (finish) work when he <sup>9</sup> \_\_\_\_\_ (want) to. That's a really good thing about his job! The problem is that he <sup>10</sup> \_\_\_\_\_ (not / have) colleagues to talk to.

My friend Sara <sup>11</sup> \_\_\_\_\_ (not / work) at home. She <sup>12</sup> \_\_\_\_\_ (have) a job in the office of an international book company. She <sup>13</sup> \_\_\_\_\_ (not / like) her job. She says that she <sup>14</sup> \_\_\_\_\_ (want) to work at home. A lot of people in her company <sup>15</sup> \_\_\_\_\_ (start) work at 9 a.m., but she <sup>16</sup> \_\_\_\_\_ (start) work at 7 a.m. She <sup>17</sup> \_\_\_\_\_ (eat) lunch in the office, and she <sup>18</sup> \_\_\_\_\_ (finish) work at 6 p.m. Sara <sup>19</sup> \_\_\_\_\_ (not / be) interested in making friends at work—she <sup>20</sup> \_\_\_\_\_ (not / talk) to her colleagues!
