

The screenshot shows a game interface on a dark background. At the top left, there are three red hearts representing health. In the center, five alien-like enemies are arranged in a horizontal line. At the bottom center, a player's spaceship is visible. On the right side, a panel displays the text "NIVEL 1 DE 5" at the top. Below this is a small image of a retro computer setup. Underneath the image is the equation  $x+2=7$ . At the bottom of the panel, there are three numbered options: "1 x=5", "2 x=3", and "3 x=9".
